

## Vulnerability Management | Intro to Education Series Video Transcript

Welcome to the Introduction to the Education series hosted by myself Ryan Seymour. I am the Director of Education and consulting here at ConnectSecure. You can connect with me anytime directly via email to [ryan@connectsecure.com](mailto:ryan@connectsecure.com) and the full education series will be hosted on YouTube our channel handle is going to be @ConnectSecureEducation.

So, what is the education series? So, what you can expect over the series are a library of short bite sized video content where we're going to cover some of the key areas of the ConnectSecure platform. So, got some topics here on screen to show you guys what we're going to start with. These are some of the focus areas.

We will add additional focus areas as we go through these and we get additional feedback from our partners. So if anyone has any ideas, again, feel free to connect with me directly, [ryan@connectsecure.com](mailto:ryan@connectsecure.com), or you can comment on the videos in the YouTube channel as you see them so we'll be watching those and look forward to spending some time with partners covering you know, tips, tricks, best practices, and just making sure that you're getting the most out of the ConnectSecure platform.
